

THE FIRST MOBILE 3-MONTH-CALENDAR

Being the inventor of the 3-month-calendar, we are also the first one to bring it onto your smartphone or tablet computer as an app.

Like our printed classic, the wall calendar, the terminic 3-month-calendar-app distinguishes itself by a clear calendar layout, easy handling and an extra large planning period.

Highlights

- Clear overview with 3 months, exactly as with our wall calendar – the printed classic
- Zoom function in the yearly view
- Clear display of various all-day dates on top of the timeline
- Public holidays and national school holiday calendar incl. colour highlighting
- Individual scheduling
- Innovative search function
- Dates can be shown and hidden with one single finger tap

Good view

In the app, the 3-month view known from the wall calendar appears as the start screen.

Please choose between this clear quarterly view, the view of the current month including its dates, or the overview of the whole year including holidays (state freely selectable).

Start screen

Overview of the whole year incl. holidays

Holiday overview all states

Holiday overview single state

Everything at a glance

According to requirement, switch between the daily, weekly, monthly and yearly view with zoom function as well as between the previous and following month or year with one single touch of your fingertip.

Daily view of all calendars

Weekly view with "office" calendar

Everything with just one click

Thanks to intuitive navigation, ease of use, user-friendly presentation and predefined standard settings you can create new appointments and tasks with only one click. Colour rendering of the new dates according to the calendar colour elected.

Everything connected

Simply synchronize all your calendars (e.g. Google, iCal, etc.) with the terminic 3-month-calendar-app.

The scheduling overview shows all the entries of your different calendars in three categories:

- A summary of all calendars in the form of a list
- A timeline with the entries of all calendars
- Single calendars in the form of a list (e.g. office, sport, private, birthday calendar)

Start screen

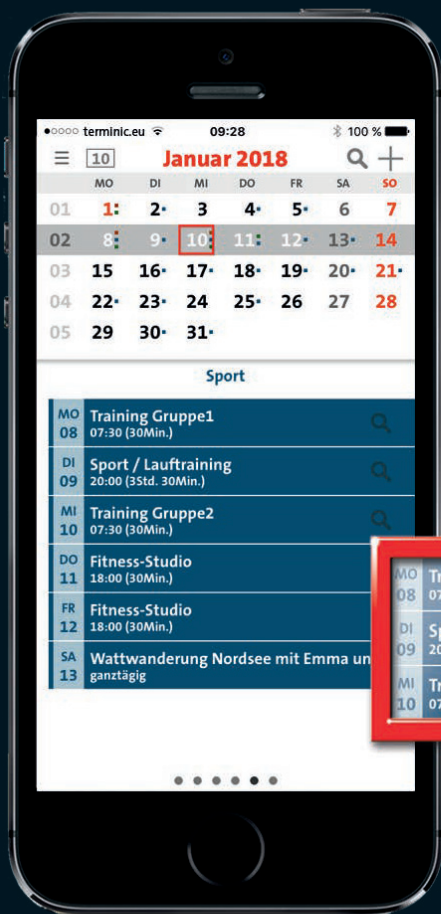

Timeline

All calendars in the form of a list

Everything found

Find all your current and upcoming dates – e.g. sport dates – with just one click.

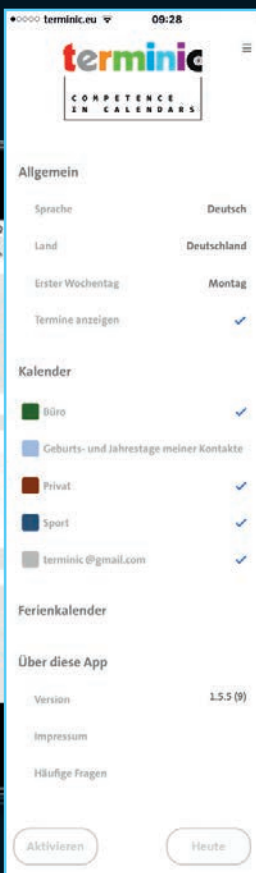

Weekly view with "sports" calendar

The innovative search function helps you to find and display dates with the same name all at once.

Settings

In the settings menu of the new release of the terminic 3-month-calendar-app you can choose between languages (German/English) and countries (DE, GB, USA), beginning of the week and your calendars to be managed.

Settings menu of the 3-month-calendar-app

In addition, you will find a national holiday calendar, further information on the app and interesting facts about calendars.

Competence in Calendars

terminic ranks among Europe's leading calendar producers.

For more than 80 years we have been producing high quality wall calendars which are unbeatable as both advertising material and planning instruments. We deliver our calendars to almost every country in the world, with datepads in more than 35 languages as a standard.
